

Research Presentation (5%)

Prepare a 20 minute PowerPoint presentation (+ 5 minutes for questions) describing results of your work on Project 6. Include information about the problem you decided to work on and describe experiments you have performed as well as any analysis you have done.

- Hints
 - Practice giving your presentation
 - Work on getting the timing just right
 - If you are including a demo in your presentation make sure it works every time and just in case have a backup of all necessary components
 - Submit your presentation as Blackboard upload in MS PowerPoint format

Due Date: 11/14
